Welcome, new year and new decade!

New year good time to strengthen bonds with your children

By Nancy Nelson Madison Plowden

When people make resolutions to be more active, eat healthier, or save more money, but kansans do not usually think of ways their children can join in.

Each family is unique and has special rules for their children. While there’s no one-size-fits-all answer, here are some ideas for families to keep in mind.

1. **Establish a Buddy System**
   - Pair older siblings with younger ones.
   - Encourage them to work together on a project or task.

2. **Create a Family Activity Calendar**
   - Include activities that appeal to the whole family.
   - Rotate the activities to keep them fresh and interesting.

3. **Set国际目标**
   - Encourage each child to set their own goals.
   - Help them track their progress and celebrate their achievements.

4. **Promote团队合作**
   - Engage in family games and activities that require teamwork.
   - Discuss the importance of working together.

5. **Encourage Exploration**
   - Take trips to museums, parks, or other places that interest your children.
   - Allow them to explore and learn at their own pace.

6. **Teach Responsibility**
   - Assign chores or tasks that help develop their sense of responsibility.
   - Teach them the importance of being accountable for their actions.

7. **Foster Communication**
   - Encourage open communication between family members.
   - Regularly check in with each other to discuss their feelings and concerns.

By following these suggestions, families can create a positive and lasting bond with their children. Remember, the key is to make sure everyone feels included and valued in the process.

Jackson County high school students are taking advantage of the holiday break to participate in the “Sticker Shock” campaign targeting the illegal sale and possession of alcoholic beverages to minors, it was reported.

The Jackson County Communities that Care Coalition (JCC) and the Jackson County Youth Coalition (JCYC) are once again sponsoring “Project Sticker Shock,” a youth-oriented campaign to change adult attitudes about selling and providing alcohol to minors. The “Sticker Shock” campaign takes place in stores in Jackson County that sell beer and packaged liquor.

Local youth and adults are part of the movement of county residents working with participating stores to spread “Sticker Shock” across the county in an effort to reach adults who might be tempted to sell alcoholic youth under 21 who can’t be fairly convicted of crimes.

The campaign is again taking place for minors, it was reported.

Youth Coalition, recently visited Hoyt Liquor to participate in the campaign.

“Sticker Shock,” a youth-oriented campaign to change adult attitudes about selling and providing alcohol to minors, is to prompt adults to think twice before making the decision to purchase or provide alcohol for anyone under 21 years of age.

In Kansas, furnishing alcohol (including simply providing or purchasing) to individuals under the age of 21 is a Class-B misdemeanor with a maximum fine of $200 fine and possible jail time of up to six months, the same for a first-time conviction on a charge of driving under the influence, according to state law.

Topping Off 2019

With friends and neighbors like you, we have every reason to smile at the holidays and all year! We hope you have a dazzling New Year! Best wishes to you and yours!

Happy New Year!

Wishing you a bright holiday season and a safe new year!

As we look forward to a new year, we would like to thank our patients and their families for allowing us to provide your care in 2019! Wishing you all a very merry holiday season and a safe new year!
